

LINKING IMAGES:

1. From the content editing screen, click on the image that you'd like to link.
2. Then click on the  icon. A small window will pop up.
3. Paste or type the URL of the page you would like this image to link to
 - o Example URL: <http://facebook.com/Innereactive>
 - o For the **Target** option, we recommend choosing **New Window** if the link takes your visitor to another website and choose; **None** if the link takes them to another page of your website.
 - o For the **Title** option, we recommend typing in a short description of the image.
4. Click **OK**
5. Click **Save** to save the changes in all four modules
